

Transparent Weatherstrip Tape

A heavy-duty tape for sealing air and moisture leaks around windows and cracks in window panes. Also used to install plastic weather-proofing materials, covers and to repair garden hoses, tarpaulins and garment bags.

Easy to Use:

1. Clean and dry application area.
2. Place tape along surface to be sealed.
3. Press firmly.

For best results, apply at temperatures above 40°F.

Cinta de Burlete Transparente

Fácil de Usar:

1. Limpiar y secar la superficie donde se va a aplicar.
2. Colocar la cinta sobre la superficie a sellarse.
3. Presionar firmemente.

Para mejores resultados aplicar en temperaturas superiores a 5°C (40°F).
